

## Tilano Fresco Marble Coasters Make Perfect Wedding Favors

Looking for that perfect take-home gift for your wedding guests or the bridal party? Tilano Decorative Products Inc (TDPI) has recently introduced a decorative marble coaster kit that puts you in the creative seat. There has never been an easier way to make personal keepsakes for your special day.

These coaster kits encourage you to design your very own custom marble coasters using personal photographs and images. Consider working on them with your girls. The unique result is a novel alternative to traditional framed photo displays in the home.

“If the image can be laser photocopied it can be made into a special hand-designed marble coaster,” says Randy Orr, artist and co-owner of TDPI. “Our customers are purchasing the kits to display engagement photos and bridal prints. We’ve also seen some amazing things done with bouquet images, bridesmaids, and even wedding ring arrangements. The possibilities are endless.”

Tilano Fresco™ Decorative Marble Coaster Kits include everything required to make four 4" X 4" marble coasters and easy step-by-step instructions for a fun-filled afternoon of creative design.

The kits are available by calling toll-free 1-866-877-4031, shopping online at [www.tilanofresco.com](http://www.tilanofresco.com) or by accessing retail locations listed on the web site. For larger parties call TDPI directly for bulk pricing information.
